

SEISA Africa Asia Bridge 2022

Yukiko Miyazawa-Chairperson of SEISA Group SEISA Africa Asia Bridge 2022 Organizer's Message

Thanks for your understanding and cooperation, SEISA Africa Asia Bridge, which was first held in 2015, is now in its 8th year. Last year, we were again under the influence of the COVID-19 pandemic, but through the children's cumulative efforts and actions in holding the event online, about 37,000 people, including people from the UNDP (United Nations Development Programme) in distant New York, Republic of Uganda, Republic of Senegal, and Republic of the Union of Myanmar, were able to participate and exchange in the event and opened the door to a new world. Prior to this event, the global perspective that we could offer to the children were still vague, and the changes that were occurring in front of them did not seem to have become a part of their lives. However, participating in each event, the children began to develop a sense of responsibility, and the event has now grown to be recognized as one of the most leading ESD (Education for Sustainable Development) campaigns in Japan..The founder, the late Honorary Chairman Mr. Yasuo Miyazawa, hoped to plant the seeds of KYOSEI (living together in harmony) in the hearts of children through this event. These seeds have germinated beautifully, and some of them seem to be blooming into large flowers. This year, I hope that the baton will be passed on to the children who will lead the next generation, while revising the significance of this event, which we have named "Bond the Bridge" . We hope that more young people, whose hearts are close to each other despite the distance, will grow up in Japan and in the countries of Africa and the Asia-Pacific region, and that they will connect and engage in peace-making and nation-building as friends. Thank you in advance for your understanding and cooperation.

Kazuhiisa Matsuoka - Chairperson of SAAB2022 Executive Committee(former Director, JICA-Africa)

SEISA Africa Asia Bridge embodies the educational philosophy of Honorary President, Mr.Yasuo Miyazawa
This SEISA Africa Asia Bridge initiative is an opportunity for SEISA colleagues, who have kept the 3 commitments of "Understand Each Other", "Leave Nobody Out" and "Make Friends", to demonstrate the results of their efforts to learn, think and act together about Africa and Asia over the years. It is also an opportunity to understand deeply what kind of society the world is aiming for by achieving the SDGs (17 international goals for sustainable development) by 2030. Currently, we are facing unpredictable situations such as the conflict between the U.S. and China and the conflict in Ukraine. In times like these, we need to think about what KYOSEI (living together in harmony), sustainable society and peace really mean. Undoubtedly, this is the era in which people who have received education based on the SEISA philosophy of "creating a world in which people live together based on mutual respect (for each other) in pursuit of world peace" must be active in their careers. In 2022, as in the previous year, due to the spread of the COVID-19, the SAAB will be held as a hybrid event of both in-person and online. With the enthusiasm and efforts of our colleagues at SEISA, we hope that SAAB will be held with even greater breadth and depth, making full use of the online advantage of having a large number of participants from Japan and abroad. We hope that all participants will understand that SAAB embodies the educational philosophy of late former President, Mr. Miyazawa and that they will experience the various exhibits and events while imagining that children with the SEISA spirit will spread to other parts of Japan and the world and transmit the concept of "Harmony of the global world".

SPECIAL GUESTS

Paralympian Dream Talk

14:00~14:50

To make para-sports take root in society, he formed a business team and produced many world champions. He has produced many world champions. He will passionately discuss the future development and appeal of para-sports!

Born in Asahikawa, Hokkaido. At the 1998 Nagano Paralympics, he began discovering, training, and strengthening the national team's athletes, laying the foundation for Para-Nordic skiing in Japan. As national team coach and team leader, he has produced medalists in seven consecutive Games from Nagano to Beijing.

Tokyo 2020 Paralympic Games Rowing (PR3 Mix4+) Japan national team 12th place. Beijing 2022 Paralympic Games Cross-country Skiing (VI) Japan National Team 7th Place.

Japanese at the Beginning of SDGs

11:00~11:50

Considering New Capitalism

The SDGs began with a Japanese? Hirofumi Uzawa was said to be the closest Japanese to win the Nobel Prize in Economics. His theory of social common capital is the idea that loosely links the 17 SDG goals. What is indispensable for a prosperous society is to protect it as social common capital, which leads to prosperity. Why don't you join us to think about the future that can be seen from economics that values things that cannot be measured by economic growth?

THE 8TH

SEISA Africa Asia Bridge

11.12 SAT 10:00-16:00
SEISA' s Dream "Live Together in Harmony" can make it possible.
You' ll be able to see the reason at SAAB 2022.

Africa and Asia have been changing drastically and diversity of people in these regions also hides great hints for KYOSEI (living together in harmony) . History, tradition, and cultural - - - There still are unknown mystery of Africa, Asia and pacific islands, understand each other and link, and we want to be the "Bridge" for the peace" I hope you learn something out of this event and we wish stronger and better relations with African, Asian and Pacific countries.
